KITS & BASKETS

Why Baskets and Kits?

TCK helps buyers consolidate related requirements into practical purchase baskets or kits. This can reduce repetitive sourcing activity, simplify coordination and create a clearer picture of the complete requirement — including the product, delivery, installation, placement or haul-away when needed.

HOW IT WORKS

SUPPORTABLE QUOTES

Price reasonableness is a cornerstone of responsible micro-purchasing.
TCK develops clear, supportable quotes based on the complete requirement.

RAPID SUPPLY LANE

TCK can coordinate **supplier pickup, staging and final delivery** of approved kit items to federal facilities throughout the operating area.

The buying office determines the acquisition method. TCK quotes each requirement as presented and does not represent that every order qualifies as a micro-purchase.
